### **TechWizardry**

*The Epoq Streamer is a Bluetooth device that acts as a gateway to external sound sources. It turns the Epoq hearing instruments into wireless ear-phones with crystal clear sound quality!*

# Super-clear SPEECH mega-sweet MUSIC and the power to EXPRESS yourself

When it comes to sound quality, Epoq is invincible. As the most hi-tech hearing optimiser ever to be produced, it makes speech sound super clear and music mega sweet . Whether you're studying at school or jamming with friends, Epoq gives you the power to express yourself.

**TechWizardry**

*With its extreme bandwidth, Epoq captures difficult-to-hear high-frequency sounds. These softer sounds add depth and detail to the sound picture. Speech and music become clearer, and everyday sounds become easier to localise.*

# When you're on the MOVE and in the MOOD to GROOVE Turn your Epoqs into FUNKY EARPHONES

With Epoq you can get lost in the music, any time and anywhere. Connect the Streamer to your MP3 and it'll turn your tiny Epoq instruments into the funkier wireless earphones. With awesome sound you'll get more out of rock, pop or rap tracks, whether you're at home, in a train - or up a tree!

*The Streamer makes it very easy to manage electronic gadgets. If the phone should ring while the user is listening to music, it can be answered at the mere touch of a button. The Streamer even has its own Volume Control.*

A person is shown from the chest up, wearing a black headset with a microphone. They are looking towards the right side of the frame, presumably at a screen. The background is blurred, showing what appears to be a gaming setup with red and black components. The overall lighting is soft and focused on the person.

# CHILL out join the GAME and kiss clumsy cables GOODBYE

Whether you're chilling out to music or gaming with friends, you want crystal clear sound quality all the time. With the Streamer you can kiss clumsy cables goodbye. Because it pipes all the digital details straight into both ears.

## TechWizardry

*As a companion device, the Streamer sends the signal wirelessly, directly to both ears. This helps to strengthen the signal to noise ratio and keeps interference to a minimum.*

## Look COOL feel CONFIDENT and impress all your FRIENDS

While the small Epoq shell is neat and discreet, the neck-worn Streamer is a real showstopper. This hi-tech duo will make you look cool and feel confident, all day long. When your friends find out how the Streamer allows hands-free gadget management, they'll be totally envious!

**TechWizardry**

*Epoq's compact design, ultra-thin sound tube and tiny Receiver-In-The-Ear make it a highly cosmetic solution And the Streamer is as elegant as any MP3 player.*

## Be TRENDY be CHOOSY be YOURSELF!

You can get Epoqs that sit snugly inside your ear, and Epoqs that sit firmly behind it. These come in a range of cool metallic colours designed to suit your personality. These devices are so easy to wear that you're likely to forget all about them.

**TechWizardry**

*Sophisticated manufacturing processes create Epoq's cool colours and sturdy finishes, while top quality components ensure long-term reliability.*

**People First** We believe that it takes more than technology and audiology to create the best hearing instruments. That's why we put the individual needs and wishes of people with hearing loss first in our development of new hearing care solutions.
